Sample: reading before reacting

A reading plan becomes useful when it changes the way you pay attention. The aim is not to collect completed chapters as quickly as possible. It is to notice the movement of the text: who speaks, what changes, what is commanded, what surprises you, and what remains unresolved.

On the first pass, resist the urge to make the passage about yourself. Read it for the story or argument that is actually there. On the second pass, mark repeated words, contrasts, questions and actions. Only after that should you ask what response might belong to you.

This order matters because application without observation can become projection. We hear what we already wanted to hear. Slowing down gives the text a chance to interrupt us.

The full journal repeats this rhythm across seven Gospel readings so that the method becomes familiar: read, notice, reflect, pray, respond. It is intentionally small enough to finish, but structured enough to establish a habit.

Preview boundary: this excerpt is intentionally short. The full ebook develops the subject through complete chapters, examples, exercises and reference material.
